Hanna, Hon. William John

July 1915

July 3rd, 1915

Hon. R. J. Hanna,

Toronto.

Dear Mr. Hanna:

The information that I gave you last night about Michigan and which I put as a footnote in my report I find was incorrect. The following I took from the official report for the year ending June 30th, 1913-14:

University of Michigan.

Total Income $1,682,550.00 Of this $858,000 are raised by mill tax, 3/8; their fees exclusive of Summer Session amount to $264,000. (Ours this year were $270,000). Buildings under construction from special grants, heat, light and power plant $350,000 to $400,000.

Science Hall $375,000.

Regularly matriculated students 5300, about 1300 more than ours. This is exclusive of 1400 students in Summer Session; we had 250 last year, but the expenses of the Summer Session are light, and these students cannot be counted in the same class as the full-time students. As I have the figures here it works out that the cost per student, exclusive of Summer Session is $311. I should not like to guarantee the accuracy of this last figure, however.

Yours sincerely,

President.
